Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Thursday 27 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cloudy with the odd, light shower Friday.

This Evening and Tonight:
Fair-weather cloud clears during the evening, but late sunshine turns hazy as cloud moves in from the west. Staying mostly dry overnight with widespread cloud cover, but the odd spot of rain arriving before dawn. Milder than Wednesday night. Minimum temperature 7 deg C (45 deg F).

Friday:
Outbreaks of rain and drizzle continuing throughout Friday, most likely in the north but their extent remains uncertain. Some dry periods are likely too but cloudy conditions hampering temperatures somewhat. Maximum temperature 18 deg C (64 deg F).

Outlook for Saturday to Monday:
Variable cloud, some sunny spells and a few showers on Saturday. Mostly dry with sunny spells on Sunday and dry on Bank Holiday Monday. Warmer than of late.
